Pre-installed Office Redeem SOP M365

If you're setting up a brand-new device, Windows 11 Home requires an internet connection. During the setup (OOBE), you'll be informed that Microsoft 365 is included.

If the device has already completed the setup (OOBE), there's no need to reset it. When you open an Office app (like Word or Excel) in the current working environment, a notification will pop up.
